

current members whose appointments will end in April 2022, and previous members. Self-nomination applications are acceptable. Applications should include all of the following information:

(1) Full name, address (home and business, if different), telephone, and email address of nominee;

(2) Specification about whether the application is for the GAC or the SAS/ National Scientific Advisory Committee or both;

(3) Nominee's organization(s) or professional affiliation(s) serving as the basis for the nomination;

(4) Background statement describing the nominee's qualifications and experience, especially as related to fisheries for tuna and tuna-like species in the eastern Pacific Ocean or other factors relevant to the implementation of the Convention Establishing the IATTC or the AIDCP. Applications to the SAS should highlight advanced degrees and academic publications; and

(5) A written statement from the nominee of intent to participate actively and in good faith in the meetings and activities of either the GAC or the SAS/ National Scientific Advisory Committee, or both.

Applicants who submitted material in response to the **Federal Register** notice published by NMFS on October 30, 2018 (83 FR 54573), or prior, should resubmit their applications pursuant to this notice.

Authority: 16 U.S.C. 951 *et seq.*

Dated: September 21, 2021.

Jennifer M. Wallace,

Acting Director, Office of Sustainable Fisheries, National Marine Fisheries Service.

National Oceanic and Atmospheric Administration

[RTID 0648-XB339]

Deepwater Horizon Oil Spill Regionwide Trustee Implementation Group Final Restoration Plan and Environmental Assessment 1: Birds, Marine Mammals, Oysters, and Sea Turtles and Finding of No Significant Impact

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Department of Commerce.

ACTION: Notice of availability.

SUMMARY: In accordance with the Oil Pollution Act of 1990 (OPA), the National Environmental Policy Act

(NEPA), and a Consent Decree with BP Exploration & Production Inc. (BP), the *Deepwater Horizon* (DWH) Federal natural resource trustee agencies for the Regionwide Trustee Implementation Group (Regionwide TIG) prepared the Final Restoration Plan and Environmental Assessment 1: Birds, Marine Mammals, Oysters, and Sea Turtles (RP/EA), and Finding of No Significant Impact. In the RP/EA, the Regionwide TIG selected projects to help restore living coastal and marine resources injured as a result of the DWH oil spill in the Regionwide Restoration Area under the "Birds", Marine Mammals", "Oysters", and "Sea Turtles" restoration types described in the Final Programmatic Damage Assessment Restoration Plan/ Programmatic Environmental Impact Statement. The total cost to implement the Regionwide TIG's eleven selected projects is approximately \$99.6 million.

ADDRESSES: *Obtaining Documents:* You may access the RP/EA from the Regionwide TIG website at: <http://www.gulfspillrestoration.noaa.gov/restoration-areas/regionwide>.

Alternatively, you may request a CD of the RP/EA (see **FOR FURTHER INFORMATION CONTACT**). Copies are also available for review at the locations listed below (see **SUPPLEMENTARY INFORMATION**).

FOR FURTHER INFORMATION CONTACT: National Oceanic and Atmospheric Administration—Jamie Schubert, NOAA Restoration Center, (310) 427-8711, regionwide.tig@noaa.gov.

SUPPLEMENTARY INFORMATION:

Introduction

On April 20, 2010, the DWH mobile drilling unit exploded, causing a massive release of oil from the BP Exploration and Production Inc. (BP) Macondo well. The explosion and oil spill led to loss of life and extensive natural resource injuries. Oil spread from the deep ocean to surface and nearshore environments across the Gulf of Mexico, from Texas to Florida. Extensive response actions were undertaken to reduce harm to people and the environment. However, many of these response actions had collateral impacts on the environment and on natural resource services.

The DWH Federal and state natural resource trustees (DWH Trustees) conducted the natural resource damage assessment for the DWH oil spill under OPA (33 U.S.C. 2701 *et seq.*). Pursuant to OPA, Federal and state agencies act as trustees on behalf of the public to assess natural resource injuries and losses and to determine the actions

required to compensate the public for those injuries and losses. OPA further instructs the designated trustees to develop and implement a plan for the restoration, rehabilitation, replacement, or acquisition of the equivalent of the injured natural resources under their trusteeship, including the loss of use and services from those resources from the time of injury until the time of restoration to baseline (the resource quality and conditions that would exist if the spill had not occurred) is complete.

The DWH Trustees are:

- U.S. Department of the Interior (DOI), as represented by the National Park Service, U.S. Fish and Wildlife Service, and Bureau of Land Management;
- National Oceanic and Atmospheric Administration (NOAA), on behalf of the U.S. Department of Commerce;
- U.S. Department of Agriculture (USDA);
- U.S. Environmental Protection Agency (EPA);
- State of Louisiana Coastal Protection and Restoration Authority (CPRA), Oil Spill Coordinator's Office, Department of Environmental Quality, Department of Wildlife and Fisheries, and Department of Natural Resources;
- State of Mississippi Department of Environmental Quality;
- State of Alabama Department of Conservation and Natural Resources and Geological Survey of Alabama;
- State of Florida Department of Environmental Protection and Fish and Wildlife Conservation Commission; and
- State of Texas: Texas Parks and Wildlife Department, Texas General Land Office, and Texas Commission on Environmental Quality.

The DWH Trustees reached and finalized a settlement of their natural resource damage claims with BP in an April 4, 2016, Consent Decree approved by the United States District Court for the Eastern District of Louisiana. Pursuant to that Consent Decree, restoration projects in the Regionwide Restoration Area are selected and implemented by the Regionwide TIG. The Regionwide TIG is composed of the DWH Trustees listed above.

Background

On September 24, 2019, the Regionwide TIG posted a public notice at <http://www.gulfspillrestoration.noaa.gov> requesting new or revised natural resource restoration project ideas for the Regionwide Restoration Area. The notice stated that the Regionwide TIG was seeking project ideas for the following Restoration Types: (1) Birds, (2) Marine Mammals, (3) Oysters; and

(4) Sea Turtles. On July 1, 2020 the Regionwide TIG announced that it had initiated drafting of its first post settlement draft restoration plan including restoration projects for Birds, Marine Mammals, Oysters and Sea Turtles. Public comments received during the review period March 22 through May 6, 2021 (86 FR 15199) contributed to the completion of the RP/EA.

Overview of the Regionwide TIG RP/EA

The RP/EA is being released in accordance with OPA Natural Resource Damage Assessment regulations in the Code of Federal Regulations (CFR) at 15 CFR part 990, NEPA (42 U.S.C. 4321 *et seq.*), the Consent Decree,¹ and the Final Programmatic Damage Assessment and Restoration Plan/Programmatic Environmental Impact Statement. In the RP/EA, the Regionwide TIG analyzes 15 alternatives and selects eleven preferred alternatives for the Birds, Marine Mammals, Oysters, and Sea Turtles restoration types. The alternatives selected include the following:

Birds

- Reducing Marine Debris Impacts on Birds and Sea Turtles (joint project with Sea Turtles Restoration Type)—\$3,520,000;
- Conservation and Enhancement of Nesting and Foraging Habitat for Birds—\$22,500,000;
 - Component 1: Chandeleur Islands, LA, \$8,000,000;
 - Component 2: Pilot Town, AL, \$6,500,000;

- Component 3: San Antonio Bay Bird Island, TX \$2,500,000;
- Component 4: Matagorda Bay Bird Island (Chester Island), TX, \$2,500,000;
- Component 5: Round Island, MS, \$3,000,000;
- Bird Nesting and Foraging Area Stewardship—\$8,510,750.

Marine Mammals

- Voluntary Modifications to Commercial Shrimp Lazy Lines to Reduce Dolphin Entanglements—\$3,179,088;
- Reducing Impacts to Dolphins from Hook-and-Line Gear and Provisioning through Fishery Surveys, Social Science, and Collaboration—\$1,700,000;
- Enhance Marine Mammal Stranding Network Diagnostic Capabilities and Consistency across the Gulf of Mexico—\$2,300,000.

Oysters

- Improving Resilience for Oysters by Linking Brood Reefs and Sink Reefs (Large-scale)—\$35,819,974 (component cost breakdown is not yet defined);
 - Component 1: East Galveston Bay, TX;
 - Component 2: Biloxi Marsh, LA;
 - Component 3: Heron Bay, MS;
 - Component 4: Mid-lower Mobile Bay, AL;
 - Component 5: Suwanee Sound, FL.

Sea Turtles

- Pilot Implementation of Automatic Identification System in the GOM Inshore Shrimp Fishery to Inform Efforts to Reduce Sea Turtle Bycatch—\$2,231,124;

- Restore and Enhance Sea Turtle Nest Productivity—\$7,655,000;
- Reducing Sea Turtle Bycatch at Recreational Fishing Sites, \$3,649,360;
- Reducing Marine Debris Impacts on Birds and Sea Turtles (joint project with Birds Restoration Type)—\$3,520,000;
- Regionwide Enhancements to the Sea Turtle Stranding and Salvage Network and Enhanced Rehabilitation—\$5,050,000;
- Component 1: Enhancing Response, Coordination, and Preparedness in the Gulf of Mexico, \$2,050,000;
- Component 2: Texas Rehabilitation Facility, \$3,000,000.

The Regionwide TIG has examined the injuries assessed by the DWH Trustees and evaluated restoration alternatives to address the injuries. In the RP/EA, the Regionwide TIG presents to the public its plan for providing partial compensation to the public for injured natural resources and ecological services in the Regionwide Restoration Area. The selected alternatives are intended to continue the process of using DWH restoration funding to restore natural resources injured or lost as a result of the Deepwater Horizon oil spill. The total estimated cost of the projects selected is approximately \$99.6 million. Additional restoration planning for the Regionwide Restoration Area will continue.

Additional Access to Materials

You may request a CD of the RP/EA (see **FOR FURTHER INFORMATION CONTACT** above). Copies of the RP/EA are also available at the following locations:
